

Organic Reactions Wiki Project Rubric

Group Members: _____

Reaction: _____

Content:

_____ 5 pts. Name of type of reaction in heading.

_____ 10 pts. Introductory paragraph explaining reaction.

_____ 10 pts. At least two examples of the reaction.

_____ 5 pts. At least one example of the reaction mechanism.

Presentation:

_____ 5 pts. Collaboration by all members of the group. The page history will be examined to verify all members have contributed.

_____ 5 pts. Visual Appeal. Graphics are used to further explain your reaction.

_____ 5 pts. Organization. A table of contents, headings and underlining are all used appropriately.

_____ 5 pts. Hyperlinks. A variety of hyperlinks are included so that your page can be used as an effective and credible source of information. Be sure all your links work!

_____ 5 pts. Original wording. Summarize information but DO NOT COPY IT. All sources must be cited in a separate section at the end of your entry.

_____ 5 pts. Spelling and grammar.

Bonus:

_____ 5 pts. Effective and engaging sound or video files are included.
